

In this article we will continue to show the truth of Creation as given to us from the "God of Truth," and the most ridiculous and absurd comments from an EVOLUTIONIST, who postulates a most ludicrous position on Natural Selection. And we will look at the intricate design of a CELL.

This is what God's Word says about Creation.

Nehemiah 9:6 KJV

Thou, even thou, art LORD alone; thou hast made heaven, the heaven of heavens, with all their host, the earth, and all things that are therein, the seas, and all that is therein, and thou preservest them all; and the host of heaven worshippeth thee.

There are hundreds of creation references throughout the entire Bible. It seems as if God wants to make sure that we are constantly reminded that He is the Creator of the entire Universe.

Psalms 104:24 KJV

O LORD, how manifold are thy works! in wisdom hast thou made them all: the earth is full of thy riches.

And, I am constantly reminded of the verse in Psalm 139:14 regarding His creation of the human body and soul.

Psalms 139:14 KJV

I will praise thee; for I am fearfully and wonderfully made: marvellous are thy works; and that my soul knoweth right well.

How sad to think that millions of people pass through this life without ever reading the Bible.

We will look at the marvel of the human cell in a few minutes. Oh, what a miraculously functioning organism the CELL is. It is inconceivable to me that any logically thinking person would think that the cell as a product of slow changes in a processes of undirected, naturalistic selection of evolution. Yet there are "scientists," who are committed to their ideology and will go to utmost lengths of absurdities to steadfastly protect their position.

Consider the comments from Michael Behe, Biochemist.

"BIOLOGIST SAYS NATURAL FORCES WORK LIKE MAGIC."

The following is excerpted from "Behe Critic on Bacterial Flagellum," Evolution News & Views, Aug. 25, 2010:

"Over at BioLogos, biologist Kathryn Applegate has offered what has to be one of the more creative alternatives to the intelligent design of the bacterial flagellum: Magic. I'm not kidding. Applegate readily concedes biochemist Michael Behe's point that the flagellum 'looks and functions just like the outboard motor, a machine designed by intelligent human engineers. So conspicuous is the resemblance that it seems perfectly logical to infer a Designer for the flagellum.'

But, wait, she says: 'The bacterial flagellum may look like an outboard motor, but there is at least one profound difference: the flagellum assembles spontaneously, without the help of any conscious agent.'

Acknowledging that 'the self-assembly of such a complex machine almost defies the imagination,' Dr. Applegate assures her readers that this is not really a problem because 'natural forces work "like magic."

Presto, chango, something appears! Now Dr. Applegate admits that in our common experience things don't just magically self-assemble without any guiding intelligence. 'We've all put together toys, furniture, or appliances; even the simplest designs require conscious coordination of materials, tools, and assembly instructions (and even then there's no guarantee that we get it right!).'

However, Dr. Applegate assures us that with nature things are different. 'It is tempting to think the spontaneous formation of so complex a machine is "guided," whether by a Mind or some "life force" but we know that the bacterial flagellum, like countless other machines in the cell, assembles and functions automatically according to known natural laws. No intelligence required.'

My comments regarding this utmost imbecilic remark. MAGIC!!! Please help me here. Is this a new scientific term that I missed in school? Or, maybe it is closely connected to the comments by George Wald when he said "given enough time the impossible becomes virtually certain."

These people simply will not submit to a God, who is the Creator of everything. You see, if they acknowledged a Creator they would have to submit to a Moral Judge of the Universe, - and they cannot accept that TRUTH.

Sadly though, even these deniers will someday have to bow the knee.

Philippians 2:10-11 KJV

That at the name of Jesus every knee should bow, of things in heaven, and things in earth, and things under the earth; [11] And that every tongue should confess that Jesus Christ is Lord, to the glory of God the Father.

But, by that time their eternal destiny will have been already sealed due to their rebellious attitude toward God while they were living and pursuing their scientific goals.

Now let us take a look at the miraculous structure of the CELL.

THIS IS EVIDENCE OF CREATION BECAUSE OF BIOLOGICAL INFORMATION!

There are 70 to 100 Trill cells in a human body. DNA is a molecule in the cell. It provides the language of life. It is located in the nucleus of the cell (heart of the cell). During the reproduction process of a cell a process of "Transcription" takes place. This process unwinds the DNA strands to access the information (language of life) sequence of the A-C, T-G chemical arrangements and sequence in the DNA. The messenger RNA copies these sequence instruction of the A-C, T-G of the DNA.

The newly created messenger RNA strand carries this information through the cell nuclear core complex into the other part of the cell. In this part of the cell there are hundreds of AMINO ACIDS floating around. There are 20 different kinds of Amino acids.

Based on the messenger RNA strand's A-C, T-G sequences, Amino acids are assembled that are at times 100s of units long for a particular gene of the body. These strands of Amino acids will then fold into a

three dimensional unit and become a protein molecule of either an eye, or an ear, fingernail, etc..

Please NOTE:

AMINO ACID CAN NOT ORGANIZE THEMSELVES into meaningful structures to form the correct proteins. They need genetic information from the DNA to do this.

There are 30,000 distinct types of proteins, each of which is comprised of different arrangement of the 20 types of AMINO ACIDS.

Experiments in 1963 demonstrated the structure of the DNA molecule, the carrier of genetic information - namely the A C T G, the four chemicals in the DNA. The sequences of these chemicals provide the information to build complex protein molecules. These form structure like eyes, wings, legs, arms, hearts, etc...

The cell is the most densely compacted and elaborate information the "Universe." Without a living cell there is no natural selection. Without DNA there is no living cell. Natural Selection could not have been functional before the existence of the first living cell.

WHERE DID THE INFORMATION IN DNA come from?????

From the ONE who created the creature, God Almighty, the Maker of all. And HE does not need Natural Selection! He spoke the language of life into existence!

Will you believe His Truth? Will you repent and trust His Son, the Lord Jesus Christ, who died in your place and provides the free gift of Eternal Life to all who believe in HIM.

So, what about radioactive dating? Does that not prove that the earth is 4.5 billion years old? Stay tuned. Much ore to come.
